## RESEARCH PORTFOLIO & PROJECT MANAGEMENT LEADER

Strategic program and project management leader with 15+ years of experience spanning national laboratory research, federal funding programs, and enterprise technology delivery. Skilled in portfolio oversight, proposal development, risk management, and operational improvement. Trusted to take on high-visibility initiatives and strengthen project delivery across multidisciplinary teams, translating organizational priorities into measurable results. Recognized across the laboratory for project management expertise, collaborative leadership, and mentoring colleagues.

### CORE COMPETENCIES

- Strategic Leadership and Team Development
- Research Portfolio and Program Management
- Project Governance and Risk Management
- Financial, Schedule and Resource Planning
- Proposal Management and Business Development

### PROFESSIONAL EXPERIENCE

**National Laboratory of the Rockies (NLR) – Golden, CO**

**Senior Data Analyst, Information Technology (IT) Services** *Mar 2023 - Present*

- Contributed to delivery of a $12M Oracle Enterprise Performance Management (EPM) implementation, advancing enterprise planning, reporting, and data integration capabilities.
- Managed analysis for 56 solution requests, translating business needs into requirements, specifications, documentation, and visualizations for technical delivery teams.
- Established standardized analysis practices through four reusable templates and two standard deliverables; currently designing an automated requirements workflow.

**Client Liaison & Senior Project Manager, IT Services** *Apr 2020 – Mar 2023*

- Managed the $6M Zero Trust initiative addressing 19 federal cybersecurity actions across five working groups, six projects, 11 major tasks, and one workstream.
- Served as Technical Program Manager for five Work Planning and Control software development projects totaling $8M, establishing project management plans and milestones and briefing senior leadership, the stakeholder committee, and 100+ end users.
- Managed the $4M Software Quality Assurance program, coordinating development and DevOps teams to establish a continuous integration and continuous deployment framework that reduced prioritized feature delivery from 12 months to two weeks.

**Project Manager, Grid Systems** *Jul 2019 – Apr 2020*

- Managed the $15M LA100 renewable energy study, coordinating multidisciplinary teams across the laboratory; the project's success brought four additional projects and a new program totaling $30M+.

- Implemented a project management framework for an international portfolio of eight grid projects in India totaling $3.5M, delivering analytical studies and helping state partners develop independent analytical capabilities.
- Renegotiated subcontracts to avoid a $1.5M laboratory loan, earning recognition from the CFO; streamlined deliverable review and submission, reducing draft-to-final submission time by 80%.
- Mentored project managers and proposal managers across the laboratory, sharing practical approaches to project planning, stakeholder engagement, and delivery.

**Business Development & Proposal Manager, Biosciences** *Oct 2014 – Jul 2019*

- Facilitated Biosciences Center strategic planning and coordinated 25+ scientific proposal submissions annually; the Center received two Early Career Awards in one year.
- Helped develop a laboratory-wide business development strategy that contributed to 14% average annual growth in the industry partnership portfolio.
- Served as Operations Manager for $19M geothermal and $10M algae portfolios, implementing project management frameworks that reduced PI administrative burden from 20+ hours to one hour per month and helped secure $5M in additional geothermal funding.

**World Travel & Personal Time** *Feb 2014 – Oct 2014*

**Deployment Director, Lyons Volunteers – Lyons, CO** *Oct 2013 – Feb 2014*

- Directed 100+ volunteer deployments, contributing $750K in FEMA-aligned labor recovery.
- Developed nonprofit's business plan and budgets for long-term flood recovery.
- Transitioned organization from emergency response to 501(c)(3) with expanded mission.

**Contracting Officer / Grants Specialist, Dept. of Energy – Golden, CO** *Sept 2009 – Aug 2013*

- Held an Unlimited Contracting Officer Warrant authorizing federal funding actions; managed 100+ awards, including individual awards exceeding $250M.
- Selected for DOE HQ detail position to support modernization of workforce and systems.
- Delivered risk-based solutions to executives through Leadership Development Program.

**Project Analyst, Navarro Research & Engineering – Golden, CO** *Apr 2007 – Sept 2009*

- Managed 50+ projects (~$19M); supported DOE Biomass and Loan Guarantees programs.
- Coordinated peer reviews and assessments of $214M in Federal energy investments.
- Led onboarding, peer mentorship and training, and internal process development.

**Team Lead, Target Corporation – Lakeside, CO** *May 2005 – Apr 2007*

- Supervised 8+ retail staff, in a high-volume environment; led training and feedback cycles.

**Education**

**MBA, Operations Management** | Regis University | Denver, CO | 2008
*Project Management Certificate*

**BAS, Visual Arts and Computer Science** | Regis University | Denver, CO | 2005
*Minors: Business, Mathematics* | *Cum Laude, Dean's List, Student Government*

**Certifications:** Project Management Professional (active since 2015); DOE Q Clearance (active)

**Awards and Recognition: NLR** - President's Award (2024, 2017); Key Contributor Award (2022); Employee of the Month (2022, 2019, 2018); **DOE** - Service & Innovation Awards (2010, 2011)
